## Experience

### Software Quality Assurance Tester

#### OneVigor

**May 2020 - Present**

**San Diego, CA**

Part-time position at San Diego-based company specializing in content distribution, ad insertion, and digital media management. Perform a variety of tests such as regression, integration, platform, and performance testing to confirm stability of software systems. Report and track bugs using Testrail and Jira. Collaborate with Product, QA, and Dev teams working with responsive web applications

### Frontend Developer

#### Epik Systems

**Apr. 2020 - Present**

**San Diego, CA**

Contract position with Carlsbad-based technology consulting firm. Primary tasks include building out proof-of-concept rapid-prototypes as well as maintenance of and iterative changes to pre-existing code for clients. Exposed to a wide variety of technology including PHP, Shopify, GraphQL and Typescript, depending on the specific environment of the client. Apply fast learning, multitasking, communication, and organization abilities.

### Junior Developer

#### Smorgborg

**Dec. 2019 – Mar. 2020**

**San Diego, CA**

Remote part-time position at San Diego startup which helps to facilitate communication between organizations/clubs and their members. Responsible for polishing UI/UX elements, addressing bugs, and building out new features. Technology stack includes React, MongoDB, GraphQL, Express, Apollo, and Ant Design.
